POVERTY IN IOWA
AN INCOME SURVEY BY COUNTIES

1971

Iowa State Office of Economic Opportunity
300 Fourth Street
Des Moines, Iowa

INTRODUCTION

Two basic responsibilities of the State Economic Opportunity Office (SEOO) are: (1) to advise the Governor on antipoverty matters, and (2) to advise the OEO Regional Office on the causes and conditions of poverty in the state of Iowa. OEO Instruction 7501-1, "The Role of State Economic Opportunity Offices," directs the SEOO to provide the Governor and the OEO Regional Office with an annual analysis highlighting the principal problems and causes of poverty in the state.

Preliminary to this analysis, and at the request of many community action agencies in the state, this office has compiled data describing the extent of poverty in each county. Unlike previous census reports, this data takes into consideration family size and farm or non-farm status according to OEO income guidelines.

METHOD

Raw data was obtained from the Iowa Department of Revenue based on personal income tax returns for 1969. This data provided the numbers of farm and nonfarm families in each county according to income range and family size. Poverty guidelines established by OEO were then used to determine the number and percent of families meeting this definition of poverty. The percent of families, by county, falling below the guidelines, and the 1970 county populations are both presented in rank orders.

From the rank orders, counties below the median county population and those having greater than the median percent of families under OEO guidelines are noted on a map of Iowa. Thirty-five counties fall into both categories. Also, the twenty-five smallest counties and the twenty-five with the highest percent of families under guidelines were noted on a map; sixteen counties fell into both groups.

LIMITATIONS

This data represents only those persons filing a 1969 Iowa income tax return. Such a return is required of those having a net income of \$1,000 or more. Also, those persons requesting a refund of taxes withheld are required to file a return.

Persons having incomes under \$1,000, including many on public assistance, who had no state tax withheld, would not be included in this survey.

OEO POVERTY GUIDELINES

<u>Family Size</u>	<u>Farm Family</u>	<u>Non-Farm Family</u>
1	\$1,500	\$1,800
2	\$2,000	\$2,400
